6"						N57-60_60 \$494.55

___ Customer Thread (must specify) refer to legend on page 566

- part numbers are generated using the rules:
smallest size to largest size, if it's the same size on both threads then we use pipe thread to fire thread size, e.g. if the desired part has a:
1) 3" NPS x 2½" NST the part number would be N57-25F30S
2) 3" NST x 3" NPS the part number would be N57-30S30F
